

FREE Hearing Screening Certificate

Hearing impacts your overall wellness in so many ways.
Untreated hearing loss is associated with major health risks:

- **Diabetes:** Hearing loss is twice as likely for patients with diabetes.
- **Fall Risk:** Hearing loss is associated with a three-fold risk of falling.
- **Dementia:** Even mild hearing loss has been linked to cognitive decline and an increased risk of Alzheimer's and dementia.
- **Cardiovascular Disease:** Hearing loss appears in almost 80% of people with cardiovascular disease.
- **Chemotherapy and I.V. Antibiotic Treatments** can save lives but damage hearing. It is recommended to have a baseline hearing screening prior to treatment and after treatment is completed.

ANAHEIM
HEARING CENTER
Hear Today, Hear for Life

200 N. Harbor Blvd - #110
Anaheim, CA 92805

714-535-7508
www.anaheimhearing.com

Your hearing is an important part of your overall health.

As part of your wellness program we're offering a

FREE Hearing Screening.

Simply call our office at 714-535-7508 to make an in-office appointment.

Your doctor will receive the results of your screening for inclusion in your medical records.

Present this certificate at your appointment.

(Must be 55 years or older to qualify.)
